

In the pictures; pouring concrete in the pavilion and in the next picture is at the Spanish church. I spend a lot of time driving the bus, driving the workers and materials they need the whole day. I need to make sure they have enough water with ice to drink in this hot sun and that they have food at noon. Also there is a lot of paperwork like bills and drawings and other.

On the 13th of Sept. I will become 56 years old and my mom will become 80 years on the 14th of Sept. So it will be good to go to Holland now and to be with family and also send some of our things stored there to Curacao and do some other things. On 23rd of Sept. I will show some pictures of our work in the church of; <https://www.LevendWater-Emmeloord.nl> I will be in Holland from 12-24 September. Sadly enough that Jeny and Sara cannot come along.

Sara now also has her permanent Stay permit and is registered on Curaçao and also has free health insurance.

Praise God that we could pay back the personal loan of 2017 thanks to a one-time gift and with the rest of the money, we could also move to the bigger house with 2 bedrooms. The house is at the same location as the Youth Centre next to the new Dutch church building. It is nice to be nearby.

However, financially we are now "back at square one" again. We receive far too little per month in gifts for our daily needs in our mission work here on Curacao. If you can help with a small donation will be a great blessing for our work.

Sara already goes to Ballet.

Warm greetings and we thank you so much for your support and prayers. God bless you

We do our uttermost best to give as much as we can of our time and energy and this verse appeals to us.

It is more blessed to give than receive. Acts 20:35
